U.S. App Store prices, verified 19 October 2026. Android and regional prices, taxes, offers and trial eligibility are shown by the relevant store before purchase. An account and active membership are required; eligible trials count as membership access.

WHAT YOU CAN DO

- Future Memories turn intentions into personal scenes you can revisit in your own words.
- Focused visualization helps you spend time with the details and feelings of a chosen scene.
- Personal reminders, including supported device alarms and notifications, fit practice around your routine.
- A journal gives reflections and meaningful experiences a place to land.
- A vision board keeps your chosen photos and possibilities together.
- Home Screen widgets keep a chosen Future Memory close on supported Apple devices.
- Themes, custom accent colors, light and dark appearance, ambient glow and personal guides make the space yours.
- Automatic on-device backups and explicit file export keep library content under your control.

FOUNDER AND INSPIRATION

Ayo Paradis Adesanya is the founder of Abunday, published by Paradis Ventures AB in Sweden. His work brings software development together with an approach to imagination and personal practice inspired by Neville Goddard and the Seth material recorded by Jane Roberts. The wider Abunday vision is a world where everyone thrives, supported by personal abundance and shared action.

FOR YOUR ARTICLE

Copy-ready descriptions, full-resolution product images, transparent wordmarks, a founder portrait and source links are available in the public press kit.
